

COMPUTER SCIENCE 483A/SENG 480B F01
D. GERMAN
FALL 2004

- Good course. High level overview is good.
- I thought this course was wonderful, and Dr. German very knowledgeable and engaging!
- My only complaint that deadlines and requirements for assignments, as well as the grading scheme was unclear. More frequent updates to the course website on these matters would be great in the future!

- I was satisfied with this course and have no detailed comments. - 10 responses

COMMENTS

Your comments about the course instructor, the course content, the laboratory, or any other aspect of the course are most welcome. These comments are **provided to the course instructor after the final grades are submitted.** The instructor may elect to provide copies of the comments to the Department Chair and/or the Dean of Engineering, and can also choose to include the comments from a course in his or her teaching dossier. In each case, all comments submitted for that course must be included. Comments are not typed before they are given to the course instructor unless you check the appropriate box below in which case the original form will be destroyed after typing.

I was satisfied with this course and have no detailed comments.

Please type my comments before they are given to the course instructor.

This class was very interesting. I especially enjoyed the interactive discussions, and sometimes the semi-relevant tangents were more interesting than the planned slides! I would have enjoyed some more references to current papers and current issues surrounding the web, and a smaller assignments on a wider variety of the topics we covered. Altogether an ~~amazing~~ positive experience that made me think.
